What's better than a bottle of wine? TWO bottles of wine! Never go to a party empty handed. You can use this vinyl zippered carrying case over and over again to bring along a couple of bottles of your favorite vintage, or use this case with its metal hardware and padded satin lining, as elegant gift packaging when you are giving wine as a present. The case holds two standard 750ml bottles (not included) and they are securely held in place with inner strap closures.
