SPECTOR & CO. 
YOUR BRAND'S BEST FRIEND

EC133 WINDSOR CHEESE PLATTER KIT

When it's wine and cheese time, simply swivel open the tempered glass cheese plate to access the eco friendly bamboo handled stainless steel tools resting securely in the bamboo bottom board in their custom slots. Once the party or meeting is over, twist the metal screw to remove the glass top to hand-wash and pat dry the cheese plate. Your message can be branded with silk-screening on the tempered glass, laser touch on the bamboo board and laser touched on the bamboo handles of the individual tools: cheese spade, cheese fork, flat cheese knife & bottle opener.
