GF1046

OPHELIA 2-PIECE GIFT SET

Gift set includes:

T1036 Ophelia

4,400 mAh Power Bank

The Ophelia power bank makes charging a simple task; blinking when charging a device and then when done, it automatically turns itself off. The rubberized plastic provides an ideal background for a great light-up branding option to suit every logo. For a dramatic effect, laser engraving will be illuminated by an inner clear white light to proudly show off your brand.

I145 Ophelia

3-in-1 Ballpoint Pen/Stylus with Backlight

Ophelia is more than just a pen/stylus, it's a light up pen with an illuminated backdrop to proudly show off your logo! Laser engrave Ophelia's matte metallic silver plastic barrel and with a firm press on the stylus, your branding will be illuminated by an inner light matching the color of the rubberized grip. (Clear light with black grip.)

Push the side-action button to write with the SureWrite™ low lead refill, or go paperless and tap away using the black rubber stylus. Either way your logo will shine.
